What is a fixed index annuity?

A fixed index annuity is a long-term, tax-deferred vehicle designed for retirement. Earnings are taxable as ordinary income when distributed. Individuals may be subject to a 10% additional tax for withdrawals before age 59½ unless an exception to the tax is met. The embedded living benefit is included for an extra charge and may be subject to conditions and limitations. There is no guarantee that an annuity with a living benefit will provide sufficient supplemental retirement income.

Here’s how it works.

- 1. Your age at issue sets the starting guaranteed annual withdrawal amount percentage (GAWA%).**
 - 2. 30% bonus is applied to your premium to set your guaranteed withdrawal balance (GWB).**
 - 3. The GAWA% at issue will increase based on your activation year if you choose to delay taking it. Additionally, a 8% annual compounding roll-up will be applied to your GWB for each year you wait for a maximum of 10 years.**
- Use the chart below to determine what the withdrawal percentage will be at a specific activation year.

Charge: 1.10% for single life issue ages are 50 to 80.

* Guarantees are backed by the claims-paying ability of Jackson National Life Insurance Company and do not apply to the investment performance of the separate account or its underlying investments.

† The for life guarantee becomes effective on the issue date of the contract.

¹ The activation year is the year when withdrawals under the guaranteed minimum withdrawal benefit (GMWB) begin. The owner must notify the Company when they will begin taking the GMWB.

Jackson, its distributors, and their respective representatives do not provide tax, accounting, or legal advice. Any tax statements contained herein were not intended or written to be used and cannot be used for the purpose of avoiding U.S. federal, state, or local tax penalties. Tax laws are complicated and subject to change. Tax results may depend on each taxpayer's individual set of facts and circumstances. You should rely on your own independent advisors as to any tax, accounting, or legal statements made herein.

Withdrawal charge percentages and market value adjustment (MVA), if applicable, will be applied to withdrawals of the accumulation value in excess of the free withdrawal amount during the withdrawal charge and/or MVA period. Any withdrawals taken between the issue date and the activation date will reduce the guaranteed withdrawal balance (GWB) on which the guaranteed annual withdrawal amount (GAWA) will be based.

Guarantees are backed by the claims-paying ability of Jackson National Life Insurance Company. They are not backed by the broker/dealer from which this annuity contract is purchased, by the insurance agency from which this annuity contract is purchased or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of Jackson National Life Insurance Company.

Fixed index annuities are also referred to as fixed annuities with index-linked interest in the contract.

Fixed index annuities (contract form numbers FIA280, ICC25 FIA280, FIA280-CB1, ICC25 FIA280-CB1, FIA285, ICC25 FIA285, FIA285-FB1, ICC25 FIA285-FB1) are issued by Jackson National Life Insurance Company (Home Office: Lansing, Michigan) and distributed by Jackson National Life Distributors LLC. These products are fixed annuities that do not participate in any stock or equity investments and have limitations and restrictions, including withdrawal charges and/or market value adjustment (may not be applicable in all states). During the withdrawal charge and/or market value adjustment period the annuity's cash withdrawal value may be less than the initial premium. Additional premium is permitted in the first contract year. Premium payments are flexible in the first contract year only, subject to contract minimums and maximums. Subsequent premiums will remain in a fixed account until the first contract anniversary. No premium payments will be accepted after the first contract anniversary.

The design of this annuity contract emphasizes the protection of credited interest rather than the maximization of interest rate crediting. Jackson issues other annuities with similar features, benefits, limitations, minimum caps/rates, and charges. Similar products with different features, limitations, and with either higher or lower caps/rates may be available through other broker/dealers. Discuss them with your financial professional or contact Jackson for more information. **Fixed annuities with index-linked interest may not be suitable for everyone.**

Products and features may be limited by state availability, and/or your selling firm's policies and regulatory requirements (including standard of conduct rules).
